A Theology for the Social Gospel is undoubtedly Walter Rauschenbusch's most enduring work. It is here that Rauschenbusch, the father of the social gospel in the United States, articulates the theological roots of social activism that surged forth from mainline Protestant churches in the early part of the twentieth century. Skillfully examining the great theological issues of the Christian faith--sin, evil, salvation, and the kingdom of God--Rauschenbusch offers a powerful justification for the church to fully engage society. The Library of Theological Ethics series focuses on what it means to think theologically and ethically. It presents a selection of important and otherwise unavailable texts in easily accessible form. Volumes in this series will enable sustained dialogue with predecessors through reflection on classic works in the field. In so-called Christian countries an increasing number of people openly reject Christian morality. It is a commonplace that they do this for values that can be shown to be Christian. How did this state of affairs come about? An examination of the beginning of Christian ethical thought shows that, within great personal variety, certain patterns or concepts remain constant. Righteousness, discipleship, faith and love are traced in this book from the New Testament through to Augustine. There is a necessary tension between high ideals and practical performance, or between perfection and contingency. When this tension is lost, Christian ethics can easily go wrong. The amoral perfectionism of second-century Gnostics is remarkably similar to the mysticism of communal movements; the opposite threat of legalism has always been present in conservative forms of Christianity. Dr Osborn is concerned to explain rather than to defend, to look at the way conclusions are reached, and to show the rich diversity of early Christian thought. Successive chapters deal with the New Testament, Clement of Alexandria, Basil the Great, John Chrysostom and Augustine. Written by experienced teachers and A-level examiners, this textbook covers the key modules of the OCR Religious Studies syllabus. In this work, originally published in 1968, the distinguished theologian James M. Gustafson asks the fundamental question, "What is the significance of Jesus Christ for the moral life?" His answer is in the form of an ethical map, showing the ways in which theological affirmations about Christ relate to moral life in the writings of a number of important Christian thinkers. In this contemporary classic originally published in 1963, Paul Lehmann answers the central question posed time and again to Christians throughout the ages: what am I as a believer in Jesus Christ and a member of his church to do? Lehmann argues that while principles for moral action can be rules of thumb, there are no absolute moral norms beyond the general norm of love. Lehmann contends that Christians are to act in every situation in ways that are consistent with God's humanizing purposes, but what that means changes from context to context and requires strong, faith-shaped discernment. "This treatise on Christian ethics is one of the most thoughtful and comprehensive presentations of the subject we have had

in many years. It should be of inestimable value not only to the general reader but also to students and classes in our colleges and seminaries".--Reinhold Niebuhr. Part of Westminster's Library of Theological Ethics series. Originally published in 1958, The Structure of Christian Ethics is Joseph Sittler's lucid interpretation of a truly Christological approach to moral behavior. Recognizing the need for the church to engage society, Sittler contends that Christian ethics is not situational, as suggested by his contemporary Joseph Fletcher, but rather conformation with Christ. Just as it is impossible to understand the American religious landscape without some familiarity with evangelicalism, one cannot grasp the shape of contemporary Christian ethics without knowing the contributions of evangelical Protestants. This newest addition to the Library of Theological Ethics series begins by examining the core dynamic with which all evangelical ethics grapples: belief in an authoritative, inspired, and unchanging biblical text on the one hand, and engagement with a rapidly evolving and increasingly post-Christian culture on the other. It explores the different roles that scholars and popular figures have played in forming evangelicals' understandings of Christian ethics. And it draws together the contributions of both senior and emerging figures in painting a portrait of this diverse, vibrant, and challenging theological and ethical tradition. This book represents the breadth of evangelical ethical voices, demonstrating that evangelical ethics involves nuance and theological insight that far transcend any political agenda. Contributors include David P. Gushee, Carl F. H. Henry, Jennifer McBride, Stephen Charles Mott, William E. Pannell, John Perkins, Soong-Chan Rah, Gabriel Salguero, Francis Schaeffer, Ron Sider, Helene Slessarev-Jamir, Glen H. Stassen, Eldin Villafañe, Allen Verhey, Jim Wallis, Nicholas Wolterstorff, and John Howard Yoder. The Library of Theological Ethics series focuses on what it means to think theologically and ethically. It presents a selection of important, and otherwise unavailable, texts—English-language texts and translations that have fallen out of print, new translations, and collections of significant statements about problems and themes of special importance—in an easily accessible form. This series enables sustained dialogue on new and classic works in the field. This update of a classic text evaluates contemporary ethical options and pressing issues of the day from a biblical perspective. What does the Bible teach about how to live in today's world? Best-selling author and professor Wayne Grudem distills over forty years of teaching experience into a single volume aimed at helping readers apply a biblical worldview to difficult ethical issues, including wealth and poverty, marriage and divorce, birth control, abortion, euthanasia, homosexuality, business practices, environmental stewardship, telling the truth, knowing God's will, understanding Old Testament laws, and more. The Blackwell Companion to Christian Ethics presents a comprehensive and systematic exposition of Christian ethics, seen through the lens of Christian worship. An innovative exposition of Christian ethics, seen through the lens of Christian worship Challenges conventional approaches to the subject Restores a sense of the integral connection between Christian ethics and theology Stanley Hauerwas is one of the most influential figures in Christian ethics around the world Embraces contributors from the Roman Catholic, Anglican, Methodist, Presbyterian, Mennonite and Pentecostal traditions Designed to be accessible to introductory students Will have a major impact on the discipline of Christian ethics Happiness and the Christian Moral Life introduces students to Christian ethics through the lens of happiness. The book suggests that the heart of ethics is not rules and obligations but our deep desire for happiness and fulfillment. We achieve that happiness when we become people who love the good and seek it in everything we do. The third edition of this reader-friendly text has been revised and updated throughout. It introduces Christian ethics with sensitivity towards readers who may not be Christian themselves. After an overview of basic concepts and key thinkers such as Augustine and Thomas Aquinas, subsequent chapters explore the importance of narrative in Christian ethics, the place of friendship and community in Christian moral life, the role of virtues in our quest for fulfillment, a Christian understanding of the person, a Christian theology of freedom, and false steps on the path to happiness. Final chapters discuss the role of conscience and prudence, love, and justice. The third edition has been re-structured to better meet teaching needs by moving the discussion of narrative earlier in the book. This edition features fresh, global examples; revised introductions to key thinkers; discussions of tough, contemporary topics such as hook-up culture; careful consideration of the words of Pope Francis on themes ranging from consumerism and freedom to love and the environment; and more. This 1935 book answered some of the theological questions raised by Moral Man and Immoral Society (1932) and articulated for the first time Niebuhr's theological position on many issues. Reinhold Niebuhr's An Interpretation of Christian Ethics is both an introduction to the discipline and a presentation of the author's distinctive approach. That approach focuses

on a realistic (rather than moralistic) understanding of the challenges facing human individuals and institutions, and a call for justice—imperfect though it might be—as what love looks like in a fallen world. The book’s most distinctive aspect is the author’s insistence that perfect love and justice are unattainable in this world, yet they remain our most important goals. From 'An Ethic for Christians and Other Aliens in a Strange Land': America is a fallen nation. Americans exist in time, in the era biblically called the Fall. America is a demonic principality, or conglomeration of principalities and powers in which death furnishes the meaning, in which death is the reigning idol. Enshrined in multifarious forms and guises, it enslaves human beings, exacts human sacrifices, captures and captivates Presidents as well as intimidating and dehumanizing ordinary citizens. Strong statements, yes, but timely in the biblical context which forms William Stringfellow's perspective of our contemporary situation. Identifying America as a fallen nation with the parable of Babylon in the Book of Revelation - not with Jerusalem the holy nation, as Americans are naively and vainly wont to do - Dr. Stringfellow issues as trenchant an indictment of our society as has been made since Philip Wylie's 'Generation of Vipers'. Shockingly prophetic, dismaying, and sobering, William Stringfellow's rigorous biblical theology will surely offend the self-righteous. But the citizen of Jerusalem, alien in Babylon, will welcome the bluntness and insight with which he speaks.
