28 Days to Family Language Learning: A Step-by-step Guide and Journal Apr 02 2021 Is your family bilingual or multilingual, or is your family learning a new language? A main concern of families is maintaining consistency in providing a language-rich environment for their children. You want to continue a minority language, but the majority (community language) is taking over. Or, you are learning a language with your children, and it is difficult to know where to begin and how to maintain the momentum. Whether you are passing along a native language, or learning a new one, this journal will provide guidance and help you stay accountable to your language-learning journey! Daily entries, weekly reflections, and activity planning pages will help determine and keep you on track with your language goals, regardless of what language you are incorporating. It is said to take 21 days to establish routine, so use the language in a routine for 21-28 days to set you on track!

The Voice of the Child Jan 19 2020 If we want children to be successful, confident, independent learners, we need to relearn the skill of truly listening. The Voice of the Child builds on a number of theories which recognise the importance of interacting with, and listening, to the children in our care, and demonstrates how these can be put into practice - listening, communicating and hearing the voice of the child effectively. The book addresses each phase of a child's development, from birth through to five years, and explains how communication skills can be used to support individual children's specific needs. Chapters offer practical tips and strategies to help early years practitioners to listen and communicate in such a way as to encourage and enhance the development of a child's speech and language skills. With case studies and reflective questions included throughout, the book highlights the importance of listening to children in order to keep them safe, ensure they feel included in their community, and to promote their confidence and self-esteem. The Voice of the Child is essential reading for early years practitioners and students, including those on Childhood Studies courses, who want to gain a clear understanding of how their own communication skills can impact on the child.

Foregrounding the power of children's own stories in the early and primary years, it provides evidence that storytelling and story acting, a pedagogic approach first developed by Vivian Gussin Paley, affords rich opportunities to foster learning within a play-based and language-rich curriculum. The book explores a number of themes and topics, including: the role of imaginary play and its dynamic relationship to narrative; how socially situated symbolic actions enrich the emotional, cognitive and social development of children; how the interrelated practices of storytelling and dramatisation enhance language and literacy learning, and contribute to an inclusive classroom culture; the challenges practitioners face in aligning their understanding of child literacy and learning with a narrow, mandated curriculum which focuses on measurable outcomes. Driven by an international approach and based on new empirical studies, this volume further advances the field, offering new theoretical and practical analyses of storytelling and story acting from complementary disciplinary perspectives. This book is a potent and engaging read for anyone intrigued by Paley's storytelling and story acting curriculum, as well as those practitioners and students with a vested interest in early years literacy and language learning. With contributions from Vivian Gussin Paley, Patricia 'Patsy' Cooper, Dorothy Faulkner, Natalia Kucirkova, Gillian Dowley McNamee and Ageliki Nicolopoulou.

The Power of a Rich Reading Classroom Dec 10 2021 There is something quite magical about forming a connection to a book: the way in which the words on the page can conjure feelings of excitement, fun, joy, laughter or tears, channeling the part of our being that fundamentally makes us human. The journey that children take as they travel towards becoming a competent and confident reader can be a long, winding and complex road. This book helps teachers understand how to build a quality reading rich curriculum that supports the needs of all the children in their classroom. Starting with a section on choosing texts, the book goes on to explore a variety of essential teaching approaches from a read aloud programme, to drama and storytelling, art and illustration. This is a practical resource that provides teachers and schools ideas to support the embedding of text experience and deliver a reading rich curriculum that leads to higher student attainment and working at greater depth.

Best Practices in Early Literacy Instruction Aug 18 2022 Bringing together prominent scholars, this book shows how 21st-century research and theory can inform everyday instructional practices in early childhood classrooms (PreK-3). Coverage includes foundational topics such as alphabet learning, phonological awareness, oral language development, and learning to write, as well as cutting-edge topics such as digital literacy, informational texts, and response to intervention. Every chapter features guiding questions; an overview of ideas and findings on the topic at hand; specific suggestions for improving instruction, assessment, and/or the classroom environment; and an engrossing example of the practices in action.

Hearing Aids for Speech-Language Pathologists May 23 2020 Hearing aid technology changes at a rapid pace. For speech-language pathologists who work with individuals using hearing instruments, keeping up with the new technology can be challenging, and sometimes even intimidating. Hearing Aids for Speech-Language Pathologists is designed to remove the mystery and the confusing high-tech terms of the many hearing aid algorithms and features, by simply laying out the need-to-know aspects in an organized, easy to read and understand manner. The core of this text focuses on how modern hearing aids work, and the tests associated with the fitting of these

instruments. Attention is given to both the school age and adult hearing aid user. Recent developments such as situation detection, rechargeability and wireless connectivity are reviewed in detail, as well as the popular use of smartphone apps to allow the user to control the processing. Amplification is not just hearing aids, and therefore chapters also have been dedicated to implantable amplification strategies, FM and Bluetooth solutions. Hearing aid fitting cannot be studied in isolation, but rather, how it fits into the complete treatment of the patient with hearing loss, including the audiologic rehabilitative process. For this reason, the beginning chapters of the book are devoted to a review of the basics of the modern audiologic evaluation and the associated auditory pathologies. Readers will also find portions of the book that address hearing screening in the schools, rehabilitative techniques and auditory training. Practicing speech-language pathologists and graduate students will find that this text provides the latest in concise and practical information in the areas of hearing aids and rehabilitative audiology. Hearing Aids for Speech-Language Pathologists is authored by two of the industry's leading authorities on adult amplification, who have carefully crafted a text that provides speech-language pathologists with the essential information to work comfortably with hearing instruments and their accessories for individuals of all ages.

EBOOK: Promoting Children's Learning from Birth to Five Nov 28 2020 Reviews of the first edition "At a time of constant and rapid change in education, this book will inform and reassure early childhood professionals." Practical Pre-School "Besides advice on the most helpful ways to develop learning in areas such as maths and literacy, there are suggestions and comments about further reading at the end of each chapter, and examples of the thoughts and responses of real children are never far from the page." TES "Innovative, resourceful and thoroughly researched... a challenge to existing and emerging early childhood professionals." Contemporary Issues in Early Childhood Promoting Children's Learning from Birth to Five supports early years professionals as they develop new practices to promote young children's learning. This second edition fully reflects the enormous changes in early childhood education and care since the publication of the first edition. Retaining its successful focus on literacy and mathematical development as key exemplars of promoting young children's learning, the book considers new ways of working with parents, promoting inter-professional collaboration, and achieving sustainable, systematic change in children's services. The second edition: Draws on current research in early literacy and mathematical thinking Focuses on multiprofessional practice, showing how practitioners who work from evidence across professional boundaries are able to give strong, interactive and sensitive support to young children and their parents Takes into account policies and practices such as Every Child Matters, the Primary Strategy and Children's Centres Includes updated material on aspects of leadership, and on the role of the Senior Practitioner in developing innovative services for children and their families Explores the importance of personal, social and emotional development in the curriculum for under-fives Working from the basis that children learn most readily in contexts where parents and professionals are keen to learn, the authors help early childhood professionals to meet the challenges of reshaping children's services. This is key reading for all early childhood professionals and students.

Augmentative and Alternative Communication Intervention Feb 18 2020 Augmentative and Alternative Communication Intervention: An Intensive, Immersive, Socially Based Delivery Model is ideal for school-based speech-language pathologists (SLPs) and an excellent resource for interventionists (special education teachers, ABA therapists) and SLPs working in other settings who wish to develop an intensive, immersive Augmentative and Alternative Communication (AAC)-based intervention through a three-phase intervention process: assessment, intervention planning, and intervention implementation. Written by an SLP who has worked in a public school setting and saw to the application of theory to practice, the text provides detailed information regarding working with children who have complex communication needs and the background knowledge necessary for successful implementation of the intervention approach. Included are considerations for vocabulary selection for the beginning communicator, how to create a symbolically rich environment, detailed intervention approaches, and progress monitoring strategies that establish appropriate, measurable goals. AAC will no longer be an alternative means of communication but a best practice means of teaching communication in the SLP's or interventionist's repertoire. Making the leap from the theoretical to the practical, this essential book: Describes the intervention needs of children with complex communication needs and the limitations of current approaches (e.g., PECS, Milieu Training, Functional Communication Training).Operationally defines the goal of AAC intervention, discussing its complexities, including the limitations of a pull-out model.Introduces the Intensive, Immersive, Socially Based Approach to Intervention and briefly describes each phase of the intervention process.Discusses how AAC assessments differ from traditional assessments of speech and language skills, as well as provides an overview of different assessment models and their contribution to the intervention process.Examines the importance of training support staff to key components of this intervention model.Contains information on the application of language-based intervention strategies to AAC.Talks about the importance of progress monitoring and how to use functional communication measures and communication sampling, a new and innovative technique developed by the author, to monitor progress.Provides example lesson plans and example goals addressing each area of communicative competence.*Disclaimer: Please note that ancillary content (such as documents, audio, and video, etc.) may not be included as published in the original print version of this book.
