Yeah, reviewing a book **Essential Papers On Masochism Essential Papers On Psychoanalysis** could mount up your close contacts listings. This is just one of the solutions for you to be successful. As understood, success does not suggest that you have astonishing points.

Comprehending as without difficulty as understanding even more than other will manage to pay for each success. neighboring to, the pronouncement as well as insight of this Essential Papers On Masochism Essential Papers On Psychoanalysis can be taken as well as picked to act.

If you ally dependence such a referred **Essential Papers On Masochism Essential Papers On Psychoanalysis** ebook that will find the money for you worth, get the extremely best seller from us currently from several preferred authors. If you desire to comical books, lots of novels, tale, jokes, and more fictions collections are plus launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every book collections Essential Papers On Masochism Essential Papers On Psychoanalysis that we will agreed offer. It is not with reference to the costs. Its about what you craving currently. This Essential Papers On Masochism Essential Papers On Psychoanalysis, as one of the most operating sellers here will agreed be among the best options to review.

When people should go to the book stores, search inauguration by shop, shelf by shelf, it is truly problematic. This is why we allow the books compilations in this website. It will no question ease you to see guide **Essential Papers On Masochism Essential Papers On Psychoanalysis** as you such as.

By searching the title, publisher, or authors of guide you in point of fact want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best area within net connections. If you try to download and install the Essential Papers On Masochism Essential Papers On Psychoanalysis, it is very easy then, back currently we extend the associate to buy and create bargains to download and install Essential Papers On Masochism Essential Papers On Psychoanalysis appropriately simple!

Thank you entirely much for downloading **Essential Papers On Masochism Essential Papers On Psychoanalysis**. Maybe you have knowledge that, people have look numerous times for their favorite books taking into consideration this Essential Papers On Masochism Essential Papers On Psychoanalysis, but stop in the works in harmful downloads.

Rather than enjoying a fine PDF subsequently a mug of coffee in the afternoon, on the other hand they juggled next some harmful virus inside their computer. **Essential Papers On Masochism Essential Papers On Psychoanalysis** is to hand in our digital library an online entrance to it is set as public in view of that you can download it instantly. Our digital library saves in complex countries, allowing you to get the most less latency period to download any of our books subsequent to this one. Merely said, the Essential Papers On Masochism Essential Papers On Psychoanalysis is universally compatible in imitation of any devices to read.

This collection traces the history of psycho-analytically informed thinking about dreams, using selected contributions from Freud to the present to highlight both the legacy of The Interpretation of dreams and the evolving use of the dream as a research tool- of the mind first, later of the psychoanalytic process and of pathology and loge predicaments, and finally as a tool to be integrated with other methods of investigation. In a draft attached to a letter to his friend and confidante Wilhelm Fliess (May 31, 1897), Freud develops an idea: The mechanism of fiction is the same as that of hysterical fantasies. He supports this thought with a brief analysis of the biographical sources of Goethe's Werther. A few months later, on October 15, 1897, Freud mails Fliess a detailed account of remembered events from his childhood that, Freud believed, underlined the universality of Oedipus Rex and Hamlet. Freud's foray into literature initiated the beginning of a new critical approach. In Essential Papers on Literature and Psychoanalysis, Emanuel Berman presents classic and contemporary papers written at the intersection of literature and psychoanalysis. In bringing these essays together Berman traces the development of a discipline that has often been plagued by a polarization between self-confident, single-minded psychoanalysts reading literature as a series of case studies and literary loyalists who cling to manifest content or to the declared intentions of the authors, accepting them at face value and depriving the work of its emotional complexity. Berman covers the full range of old and new perspectives, and presents selections from today's mature phase. This collection includes papers by Sigmund Freud, Steven Marcus, Patrick J. Mahoney, Donald Spence, Otto Rank, Ernest Jones, Ernst Kris, Phyllis Greenacre, Florence Bonime and Maryanne Eckardt, David Werman, Ellen Handler Spitz, Jacques Lacan, Shoshana Felman, Norman N. Holland, Roy Schafer, Meredith Anne Skura, Gail S. Reed, Francis Baudry, Rivka R. Eifermann, and Bennett Simon. Paper is the largest single component of municipal solid waste, and the recycling of paper must be part of any resolution to the current garbage crisis. Because there are no uniform standards for the generic term "recycled," it is still difficult for paper users to make environmentally responsible purchasing decisions. Myths, misinformation, and confusion abound. This first comprehensive guide to recycled printing and writing papers will therefore be an invaluable resource for anyone involved with printing, production, design, or issues of recycling in general. The book itself, printed on four different types of recycled paper, is a demonstration of the quality that informed designers and publishers can achieve. In concise, nontechnical language, Claudia Thompson explains the dimensions of the solid waste problem, the history of papermaking, the elements of recycled paper production (including current definitions and standards), the physical properties and printing characteristics of recycled papers, the potential impact of designers on recycling, and possibilities for the future. Recycled Papers: The Essential Guide was sponsored by the American Institute of Graphic Arts under the direction of Claudia Thompson, a graphic designer and Principal of Claudia Thompson Design in Cambridge, Massachusetts. Ms. Thompson's work on environmental issues started with the first Earth Day in 1970, and she has been researching the subject of recycled papers since 1988. This book represents a sample of the most penetrating Jewish movements. An essential collection on leading psychoanalyses of narcissism Narcissism has recently been the focus of debate among professionals, in large part due to the controversies surrounding the world of Heinz Kohut and Otto Kernberg. Yet much has been written about narcissism throughout the history of psychoanalysis and this carefully selected collection brings together the essential work on narcissism. The book first puts forth the major theoretical formulations - self-psychology, object relations, psychodynamics - and then explores diagnostic and therapeutic applications. The book offers landmark classic and contemporary contributions by authors such as Annie Reich, Heinz Kohut, Otto Kernberg, Alice Miller, Arnold Modell, and many others. This new edition incorporates revised guidance from H.M Treasury which is designed to promote efficient policy development and resource allocation across government through the use of a thorough, long-term and analytically robust approach to the appraisal and evaluation of public service projects before significant funds are committed. It is the first edition to have been aided by a consultation process in order to ensure the guidance is clearer and more closely tailored to suit the needs of users. Concentrating on the theosophical/theurgical trend of Kabbalah, 15 essays, reprinted from academic journals and often translated from Hebrew, examine the body of literature that grew up between the 12th and 18th centuries from several approaches. They cover mystical motifs and theological ideas, mystical leadership and personalities, and devotional practices and mystical experience. Annotation copyright by Book News, Inc., Portland, OR In a draft attached to a letter to his friend and confidante Wilhelm Fliess (May 31, 1897), Freud develops an idea: The mechanism of fiction is the same as that of hysterical fantasies. He supports this thought with a brief analysis of the biographical sources of Goethe's Werther. A few months later, on October 15, 1897, Freud mails Fliess a detailed account of remembered events from his childhood that, Freud believed, underlined the universality of Oedipus Rex and Hamlet. Freud's foray into literature initiated the beginning of a new critical approach. In Essential Papers on Literature and Psychoanalysis, Emanuel Berman presents classic and contemporary papers written at the intersection of literature and psychoanalysis. In bringing these essays together Berman traces the development of a discipline that has often been plagued by a polarization between self-confident, single-minded psychoanalysts reading literature as a series of case studies and literary loyalists who cling to manifest content or to the declared intentions of the authors, accepting them at face value and depriving the work of its emotional complexity. Holland, Roy Schafer, Meredith Anne Skura, Gail S. Reed, Francis Baudry, Rivka R. Eifermann, and Bennett Simon. The book is divided into sections with seminal papers from each decade. The preface of each section, written by the editor, places each paper in it's historical context and making for a fascinating story of an aspect of the history of psychoanalysis and psychiatry in America. A collection of the most important writings on understanding and treating PTSD Essential Papers on Post Traumatic Stress Disorder collects the most important writings on the comprehension and treatment of Post Traumatic Stress Disorder. Editor Mardi J. Horowitz provides a concise and illuminating introductory essay on the evolution of our understanding of Post Traumatic Stress Disorder, and establishes the conceptual framework and terminology necessary to understand the disorder. The collected essays which follow provide a rich and comprehensive take on the complexity of Post Traumatic Stress Disorder, illuminating such issues as the variety of individual and cultural responses, the roles of pre- and post-traumatic causative forces, and the fluctuating complexities of diagnostic categories. Divided into sections addressing the broad topics of diagnosis, etiology, and treatment, Essential Papers on Post Traumatic Stress Disorder combines classic essays with more challenging and controversial approaches. Contributors include Sigmund Freud, Erich Lindemann, Leo Eitinger, Carol C. Nadelson, Malkah T. Notman, Hannah Zackson, Janet Gornick, Bonnie L. Green, Mary C. Grace, Jacob D. Lindy, James L. Titchener, Joanne G. Lindy, Lenore C. Terr, Rosemarie Galante, Dario Foa, Edna B. Foa, Barbara Olasov Rothbaum, David S. Riggs, Tamara B. Murdock, James H. Shore, Ellie L. Tatum, William M. Vollmer, Roger K. Pittman, Scott P. Orr, Dennis F. Fogue, Bruce Altman, Jacob B. de Jong, Lawrence R. Herz, Judith Lewis Herman, Rachel Yehuda, Alexander McFarlane, Frank W. Putnam, Robert Jay Lifton, Eric Olson, Nancy Wilner, Nancy Kaltrider, William Alvarez, Michael R. Trimble, Epstein, Terence M. Keane, Rose T. Zinering, Juesta M. Caddell, John H. Krystal, Thomas R. Kosten, Steven Southwick, John W. Mason, Bruce D. Perry, Earl L. Giller, David Spiegel, Thurman Hunt, Harvey E. Dondershire, Bessel A. van der Kolk, Peter J. Lang, Robert S. Pynoos, Spencer Eth, Matthew J. Friedman, Francine Shapiro, John P. Wilson, Jacob D. Lindy, I. Lisa McCann, and Laurie Anne Pearlman. A collection of the most significant contributions to psychoanalytic and psychological understanding of the effect of object loss on adults and children. Annotation copyright by Book News, Inc., Portland, OR The book is divided into sections with seminal papers from each decade. The preface of each section, written by the editor, places each paper in it's historical context and making for a fascinating story of an aspect of the history of psychoanalysis and psychiatry in America. Zionism, more than any other social and political movement in the modern era, has completely and fundamentally altered the self-image of the Jewish people and its relations with the non- Jewish world. As the dominant expression of Jewish nationalism, Zionism revolutionized the very concept of Jewish peoplehood, taking upon itself the transformation of the Jewish people from a minority into a majority, and from a diaspora community into a territorial one. Bringing together for the first time the work of the most distinguished historians of Zionism and the Yishuv (pre-state Israeli society), many never before translated into English, this volume offers a comprehensive treatment of the history of Zionism. The contributions are diverse, examining such topics as the ideological development of the Jewish nationalist movement, Zionist trends in the Land of Israel, and relations between Jews, Arabs, and the British in Palestine. Contributors include: Jacob Katz, Shmuel Almog, Yosef Salmon, David Vital, Steven J. Zipperstein, Michael Heymann, Jonathan Frankel, George L. Berlin, Israel Oppenheim, Gershon Shaked, Joseph Heller, Hagit Lavsky, and Bernard Wasserstein. Essential Readings from the Melanie Klein Archives brings together a selection of previously unpublished material by Melanie Klein, one of the key architects of child psychoanalysis, and sets that in the context of the contemporary understanding of her work, with contributions by a range of leading Klein scholars. A carefully selected volume tracing the development of countertransference—the emotional reaction of an analyst to their subject In Essential Papers on Countertransference, Benjamin Wolstein has carefully gathered the classic essays which trace the development of countertransference as a psychoanalytic concept and explore the various ways in which it has been defined and used by various psychoanalytic schools. The volume includes selections from the work of Sigmund Freud, D. W. Winnicott, Clara Thompson, Harold F. Searles, and Heinrich Racker, among others. Wolstein's introduction offers a provocative perspective on the concept of countertransference and places in context the many controversies surrounding its use by analysts. Contributors: Mabel Blake Cohen, Ralph M. Crowley, Lawrence Epstein, Arthur H. Feiner, Sandor Ferenczi, Sigmund Freud, Merton M. Gill, Douglas W. Orr, Heinrich Racker, Otto Rank, Theodor Reik, Janet MacKenzie Rioch, Harold F. Searles, Leo Stone, Edward S. Tauber, Clara Thompson, Lucia E. Tower, and D. W. Winnicott. Gathers the classic articles on the subject of depression. It includes pieces by such core figures as Karl Abraham, Sigmund Freud, Frieda Fromm-Reichmann, Martin E. P. Seligman, Aaron T. Beck, and George Winokur. The volume is broken into four parts: Psychodynamic Approaches; Behavioral and Cognitive Approaches; Interpersonal and Social Approaches; and Biomedical Approaches. First English translation of revolutionary paper (1931) that established that even in elementary parts of arithmetic, there are propositions which cannot be proved or disproved within the system. Introduction by R. B. Braithwaite. This book traces the

prehistory and initial development of wavelet theory, a discipline that has had a profound impact on mathematics, physics, and engineering. Interchanges between these fields during the last fifteen years have led to a number of advances in applications such as image compression, turbulence, machine vision, radar, and earthquake prediction. This book contains the seminal papers that presented the ideas from which wavelet theory evolved, as well as those major papers that developed the theory into its current form. These papers originated in a variety of journals from different disciplines, making it difficult for the researcher to obtain a complete view of wavelet theory and its origins. Additionally, some of the most significant papers have heretofore been available only in French or German. Heil and Walnut bring together these documents in a book that allows researchers a complete view of wavelet theory's origins and development. Illuminating the Talmud's history, sources, arguments, and methods, this volume adds the insights of modern Talmudic scholarship and criticism to the growing number of more traditionally oriented works. Collected here in one volume are essential essays published in the area of Talmudic study by Jacob Neusner, Robert Goldenberg, Louis Ginzberg, and others. Betty Joseph's work has become an outstanding influence in the development and theory of psychoanalytic technique in the Kleinian tradition. This collection of her most important papers examines the development of her thought and shows why a crucial part of her theory and practice is concerned with the detailed, sensitive scrutiny of the therapeutic process itself. Fundamental and controversial topics explored and discussed include projective identification, transference and countertransference, unconscious phantasy, and Kleinian views on envy and the death instinct. Provides immediate help for anyone preparing a biomedical paper by giving specific advice on organizing the components of the paper, effective writing techniques, writing an effective results sections, documentation issues, sentence structure and much more. The new edition includes new examples from the current literature including many involving molecular biology, expanded exercises at the end of the book, revised explanations on linking key terms, transition clauses, uses of subheads, and emphases. If you plan to do any medical writing, read this book first and get an immediate advantage. An anthology of essays examining the nature and practice of sexual masochism The contested psychoanalytic concept of masochism has served to open up pathways into less-explored regions of the human mind and behavior. Here, rituals of pain and sexual abusiveness prevail, and sometimes gruesome details of unconscious fantasies are constructed out of psychological pain, desperate need, and sexually excited, self-destructive violence. In this significant addition to the Essential Papers in Psychoanalysis series, Margaret Ann Fitzpatrick Hanly presents an anthology of the most outstanding writings in the psychoanalytic study of masochism. In bringing these essays together, Dr. Fitzpatrick Hanly expertly combines classic and contemporary theories by the most respected scholars in the field to create a varied and integrated volume. This collection features papers by S. Nacht, R. Loewenstein, Victor Smirnoff, Sigmund Freud, Jacques Laplanche, Robert Bak, Leonard Shengold, K. Novick, J. Novick, S. Coen, Margaret Brenman, Esther Menaker, S. Lorand, M. Balint, Bernhard Berliner, Charles Brenner, Helene Deutsch, Annie Reich, Marie Bonaparte, Jessica Benjamin, S.L. Olinick, Arnold Modell, Betty Joseph, and Janine Chasseguet-Smirgel. A collection of central papers on transference—the psychoanalytic phenomenon of adult repetition of childhood experiences Among Freud's discoveries, none has proved more theoretically valid or clinically productive than his demonstration that humans regularly and inevitably repeat with the analyst patterns of relationship, fantasy, and conflict experienced in their childhood. Transference phenomenon and its analysis in therapy is the cornerstone for much psychoanalytic work. It's crucial importance has been and continues to be a matter of debate among psychoanalysts. Essential Papers on Transference presents the central papers on the subject of transference from Freud's time to our own. Although many reflect viewpoints within the psychoanalytic mainstream, efforts have been made to be as inclusive as possible; thus neo-Freudian, Kohutian, and Lacanian statements are represented. The book underscores the fact that the meaning, the therapeutic use, and even the theoretical explanation of transference and transference phenomena have undergone significant changes over the years. An integrated package of powerful probabilistic tools and key applications in modern mathematical data science. Aligning global governance to the challenges of sustainability is one of the most urgent environmental issues to be addressed. This book is a timely and up-to-date compilation of the main pieces of the global environmental governance puzzle. The book is comprised of 101 entries, each defining a central concept in global environmental governance, presenting its historical evolution, introducing related debates and including key bibliographical references and further reading. The entries combine analytical rigour with empirical description. The book: offers cutting edge analysis of the state of global environmental governance, raises an up-to-date debate on global governance for sustainable development, gives an in-depth exploration of current international architecture of global environmental governance, examines the interaction between environmental politics and other fields of governance such as trade, development and security, elaborates a critical review of the recent literature in global environmental governance. This unique work synthesizes writing from an internationally diverse range of well-known experts in the field of global environmental governance. Innovative thinking and high-profile expertise come together to create a volume that is accessible to students, scholars and practitioners alike. Recent advances in the diagnosis and treatment of obsessive-compulsive disorder have come from breakthroughs in neurobiologic and cognitive-behavioral studies. Essential Papers on Obsessive-Compulsive Disorder represents the most significant thinkers and the various strands of thought on obsessive-compulsive disorder. Divided into three sections focusing on classical psychoanalysis, psychological research, and neuro-psychiatric approaches, this definitive volume includes contributions by the most experienced and renowned experts on the subject. Contributors include Sigmund Freud; Karl Abraham; Ernest Jones; Anna Freud; Paul E. Sifneos; Leonard Salzman; Joseph Sandler and Anandi Hazari; Lewis L. Judd; Heinz Hartmann; Stanley Rachman, Ray Hodgson and Isaac M. Marks; Paul M. Salkovskis; Paul Schilder; Steven P. Wise and Judith L. Rapoport; Joseph Zohar and Thomas R. Insel; Michael A. Jenike; Susan E. Swedo, Henrietta Leonard; Lewis R. Baxter, Jeffrey M. Schwartz, Kenneth S. Bergman; Dan Stein and Eric Hollander. Covering a wide range of topics, the collection consists of twenty-six papers and essays published over a period of two decades. Readers of this book are thus enabled to trace the analyst's development, in which his scientific approach is evident throughout, from his earliest papers through to his last works. First published in 1927 in the International Psychoanalytical Library, the author's Selected Papers on Psychoanalysis has since established itself as one of the seminal works essential to the training of workers in the psychoanalytic field. Includes the author's classic paper A Short Study of the Development of the Libido. Essential Guide to Reading Biomedical Papers: Recognising and Interpreting Best Practice is an indispensable companion to biomedical literature. This concise, easy-to-follow text gives an insight into core techniques and practices in biomedical research and how, when and why a technique should be used and presented in the literature. Readers are alerted to common failures and misinterpretations that may evade peer review and are equipped with the judgment necessary to be properly critical of the findings claimed by research articles. This unique book will be an invaluable resource for students, technicians and researchers in all areas of biomedicine. Allows the reader to develop the necessary skills to properly evaluate research articles Coverage of over 30 commonly-used techniques in the biomedical sciences Global approach and application, with contributions from leading experts in diverse fields This volume brings together many of the important writings of Hans Loewald, one of the major theoreticians of psychoanalysis today. Among other subjects, Dr. Loewald discusses the nature of the internalization processes and structure building, the nature the role of reality, pre-oedipal modes of perceiving and the permanence of a "psychotic core" in every personality, the relationship of psychoanalysis to culture, mastery and defense, and the nature of time. "[Loewald's] writing is stimulating and challenging, and his work contains some profound psychoanalytic insights."--Steven J. Ellman, Contemporary Psychology "Loewald belongs securely in the ranks of major psychoanalytic thinkers. . . . [His book] contains memorable contributions to our theoretical and clinical understanding of a broad range of topics, and should be read by anyone interested in human psychology."--Sydney E. Pulver, M.D., Review of Psychoanalytic Books "A pleasure to read."--F. H. G. Balfour, British Journal of Psychiatry Since Freud's first mention of object relations in his seminal paper Three Essays on the Theory of Sexuality, analysts have been arguing about its role in the psychological development and mental life of individuals. Essential Papers on Object Relations gathers together the critical papers by major figures in the field. Reflecting the changes and conflicts over the past hundred years, the volume includes the work of key scholars as they attempt to define, delineate, and describe object relations theory. It includes work by: Sigmund Freud, Melanie Klein, Arnold H. Modell, W. R. D. Fairbairn, Jacob A. Arlow, Annie Reich, John Bowlby, Margaret S. Mahler, Harry Guntrip, D. W. Winnicott, Joseph Sandler and Anne-Marie Sandler, Otto Kernberg, T. F. Main, Edith Jacobson, and Hans W. Loewald. The book, which includes explanatory introductions to each part, is an invaluable resource for those seeking a thorough examination of object relations theory and the classical and contemporary work of major analytic thinkers. y. "The Congress of Neurological Surgeons (CNS) Essential Papers in Neurosurgery brings to the neurosurgical community a unique collection of critically appraised neurosurgical papers shedding light on some of the most impactful studies in the history of neurosurgery. The "CNS Essential Papers" project is rooted in the culture of evidence-based medicine and data-driven decision making"-- The most important writings on the psychoanalytic understandings and treatments of drug and vice addiction Drug abuse, alcoholism, compulsive gambling, and other destructive addictions plague our society. Theories of addiction locate its cause variously—in factors related to the substance, the addict's personality, or to the addict's environment. Arguments about effective treatment programs are fierce. Essential Papers on Addiction presents the most important writing and the various sides of the debate on the psychoanalytic understanding and treatment of addiction. Daniel Yalisove outlines the history of the treatment of addiction and introduces important psychoanalytic concepts used in understanding addicts. The book includes case studies which illustrate the course of addiction and presents the work of the most influential theorists in the field. Divided into eight sections focusing on historical work on addiction, psychoanalytic theories of addiction, transference and countertransference issues in treating addiction, psychoanalytic treatment for the addictions, psychoanalytic therapy and disease concepts, and psychiatric illness and addiction, this definitive volume includes contributions by the most experienced and renowned experts on the subject. Contributors include S. Freud, E. Glover, S. Rado, R. P. Knight, L. Wurmser, N. E. Zinberg, H. Krystal, D. Jacobs, R. Fine, J. Gustafson, C. L. Brown, M. L. Selzer, V. Davidson, J. Imhof, R. Hirsch, R. E. Terenzi, M. E. Chafetz, A. Silber, R. J. Rosenthal, E. M. Pattison, M. B. Sobell, L. C. Sobell, J. E. Zweben, E. Simmel, B. Brickman, E. J. Khantzian, R. D. Weiss, S. M. Mirin, A. T. McLellan, and H. J. Richards. The messianic idea that a redeemer sent by God will come to end the suffering of a persecuted people and inaugurate a new age of justice and peace has been one of the most powerful and influential concepts given by the Jewish people to western civilization. This book represents a sample of the most penetrating and provocative scholarly interpretations of Jewish messianic movement from various perspectives—historical, sociological, psychological, and religious. In the context of a plateau in the development of new methodologies for using nuclear magnetic resonance to investigate the structure of macromolecules, 21 lectures and ensuing discussions, and three panel discussions evaluate the status of the field and the directions it might take. The keynote address discusses the possibilities and limitations of NMR studies of the intramolecular dynamics of biomolecules. Among the other topics are proteins involved in cell adhesion processes, incorporating motional properties into the interpretation of three-dimensional solution structures, the accurate measurement of internuclear distances by suppressing spin diffusion, and flexible molecules. Abstracts are also provided for about 70 poster papers. Annotation copyright by Book News, Inc., Portland, OR Brevity: rigidity and length of time frame - Treatment focus: the patient in the outside World - Therapist activity: focusing on (or away from) the unconscious - Patient selection: in sickness and in health - Brevity revisited: when less means more. This is the third edition of this publication which contains the latest information on vaccines and vaccination procedures for all the vaccine preventable infectious diseases that may occur in the UK or in travellers going outside of the UK, particularly those immunisations that comprise the routine immunisation programme for all children from birth to adolescence. It is divided into two sections: the first section covers principles, practices and procedures, including issues of consent, contraindications, storage, distribution and disposal of vaccines, surveillance and monitoring, and the Vaccine Damage Payment Scheme; the second section covers the range of different diseases and vaccines.
