Literature as cultural discourse has always courted mobility. From the nomadic wanderings of the heroes of Homer and Virgil through the adventures of the medieval knight-errants to the travellers of modern times, movement and mobility have been constitutive elements of story-telling. Since writers have begun to explore the experiential dimension of movement their texts have embraced the essential changeability and instability of 'mobile worlds'. In this sense literature reflects and processes the transformative force of movement on the perception of the world and is part of the broader cultural discourses of mobility. From the 1936 film *Night Mail* to the rapid movements of the dime novel detective and the metaphorical coding of automobility in Futurist poetry the essays in this volume offer new perspectives on the phenomenon of mobility at the intersection between the literary imagination and cultural experience. They explore movement as a decisive force of change in the story of modernity and show how literature in its representation of mobility simultaneously aims both to mirror and to grasp the phenomenon. "If we harbor thoughts of violence or hatred, or seek revenge or retribution, we are contributing to the wounding of the world; if we transform those thoughts into forgiveness and compassion, and then move beyond them to actually make amends or restitution, we are contributing to the healing of the world. This timely, powerful and compassionate book helps show us the way." —Deepak Chopra "Nothing will help us survive the present age more than breaking the tragic cycles of violence and revenge that threaten our very existence. To do so, we must honor our soul's desire for deeper forms of reconciliation, a process that Phil Cousineau reveals here as being on the other side of forgiveness, in the ancient ritual of atonement. His book is a profoundly important contribution to the healing of the world, and I give it my blessing." —Robert A. Johnson, author of *Transformation, Inner Work and Owning Your Own Shadow* As indispensable as forgiveness has been to the healing process throughout history, there is another

equally profound action that is needed for ultimate reconciliation, which Arun Gandhi, grandson of Mohandas Gandhi, calls “the other side of the coin.” Turning over the coin of forgiveness, we discover atonement, the half-hidden, much-overlooked other half of the reconciliation process. Beyond Forgiveness shows how acts of atonement—making amends, providing restitution, restoring balance—can relieve us of the pain of the past and give us a hopeful future. This rich and powerful book includes 15 thoughtful contributions by high-profile thinkers and activists including Huston Smith, Michael Bernard Beckwith, Azim Khamisa, Rabbi Michael Lerner, Jacob Needleman, Michael Nagler, Diane Hennacy Powell, James O’Dea, Arun Gandhi, Kate Dahlstedt, Ed Tick, Richard J. Meyer, Rev. Heng Sure, Douglas George-Kanentiio and Katharine Dever. Atonement is put forward as a process that we must all learn to practice—from individuals to nations—if we are to heal our wounds and move forward. Using a variety of cases from history and today's life, the book examines character attackers targeting the private lives, behavior, values, and identity of their victims. Numerous historical examples show that character assassination has always been a very effective weapon to win political battles or settle personal scores. This volume presents a collection of rail orientated research articles, covering a variety of topics on rail operations research and management of rail systems as well as innovation, particularly focusing on sustainability aspects. The material consists of the most recent research work of the authors. The authorship is international, which makes it an interesting read for rail academics and professionals around the world. Although the material has a rail research focus the material is also excellent for preparation and delivery of rail, transport and logistics orientated courses and programmes. The target audience primarily comprises research experts in transport research, but the book may also be beneficial for graduate students alike. The previous book by the author was an exposé on how the narrative of falsehood of Hindu terror was conceived and propagated in the country. An attempt has been made in this book -- Deception, to capture the intrinsic working of the Government through the triumphs and tribulations of the central character -- Kalyan. He exposes how critical information which is testified by intelligence agencies is also manipulated by the Government which is in pursuit of larger political conspiracy by blaming one ethnic group to placate the other ethnic group. Such acts , perpetuated only to appease the minorites and make them captive voters of this political formation. Networks play a central role in today’s society, since many sectors employing information technology, such as communication, mobility, and transport - even social interactions and political activities - are based on and rely on networks. In these times of globalization and the current global financial crisis with its complex and nearly incomprehensible entanglements of various structures and its huge effect on seemingly unrelated institutions and organizations, the need to understand large networks, their complex structures, and the processes governing them is becoming more and more important. This state-of-the-art survey reports on the progress made in selected areas of this important and growing field, thus helping to analyze existing large and complex networks and to design new and more efficient algorithms for solving various problems on these networks since many of them have become so large and complex that classical algorithms are not sufficient anymore. This volume emerged from a research program funded by the German Research Foundation (DFG) consisting of projects focusing on the design of new discrete algorithms for large and complex networks. The 18 papers included in the volume present the results of projects realized within the program and survey related work. They have been grouped into four parts: network algorithms, traffic networks, communication networks, and network analysis and simulation. Planet Auschwitz explores the diverse ways in which the Holocaust influences and shapes science fiction and horror film and television by focusing on notable contributions from the last fifty years. The supernatural and extraterrestrial are rich and complex spaces with which to examine important Holocaust themes - trauma, guilt, grief, ideological fervor and perversion, industrialized killing, and the dangerous afterlife of Nazism after World War II. Planet Auschwitz explores why the Holocaust continues to set the standard for horror in the modern era and asks if the Holocaust is imaginable here on Earth, at least by those who perpetrated it, why not in a galaxy far, far away? The pervasive use of Holocaust imagery and plotlines in horror and science fiction reflects both our preoccupation with its enduring trauma and our persistent need to “work through” its many legacies. Planet Auschwitz website (<https://planetauschwitz.com>) Audiences never have a lukewarm opinion of a Subiela film. They either love it passionately or hate it profoundly. That Eliseo Subiela (Buenos Aires, 1944-2016), an original and sensitive thinker, survived, and indeed thrived in economically challenged Argentina while garnering more accolades abroad than in his own country, is a tribute to his grit, intelligence, imagination and persistence of vision. With an astounding list of prizes and honors, he was a world-class auteur. Even when he was making a TV commercial, his surreal style and poetic sensibility were unmistakable. This book represents the culmination of 20 years of research and personal correspondence with Eliseo Subiela. Through ten scholarly studies and five interviews, it sheds light on his life, esthetics, obsessions, struggles with madness, and, of course, his films. It addresses his earlier career in advertising, lifelong artistic influences, screenwriting techniques, critical reactions to his films, and what Subiela's example has to offer aspiring filmmakers, especially those in Latin America. In Burning the Midnight Oil, word-wrangler extraordinaire Phil Cousineau has gathered an eclectic and electric collection of soulful poems and prose from great thinkers throughout the ages. Whether beguiling readers with glorious poetry or consoling them with prayers from fellow restless souls, Cousineau can relieve any insomniac's unease. From St. John of the Cross to Annie Dillard, Beethoven to The Song of Songs, this refreshingly insightful anthology soothes and inspires all who struggle through the dark of the night. These "night thoughts" vividly illustrate Alfred North Whitehead's liberating description of "what we do without solitude" and also evoke Henry David Thoreau's reverie, "Our truest life is when we are in dreams awake." The night writers in Cousineau's vesperal collection range from saints, poets, and shamans to astronomers and naturalists, and tells of ancient tales and shining passages from the most brilliant (albeit insomniac) writers of today. These poetic ponderances sing of the falling darkness, revel in dream-time, convey the ache of melancholy, conspire against sleeplessness, vanquish loneliness, contemplate the night sky, rhapsodize on love, and languorously greet the first rays of dawn. Notable night owls include Rabandranath Tagore, Mary Oliver, Manley Hopkins, Jorge Borges and William Blake. This unique book on neurocognitive interpretations of Australian literature covers a wide range of analyses by discussing Australian Literary Studies, Aboriginal literary texts, women writers, ethnic writing, bestsellers, neurodivergence fiction, emerging as well as high- profile writers, literary hoaxes and controversies, book culture, and LGBTIQ+ authors, to name a few. It eclectically brings together a wide gamut of cognitive concepts and literary genres at the intersection of Australian literary studies and cognitive literary studies in the first single-author volume of its kind. It takes Australian Literary Studies into the age of neuroawareness and provides new pathways in contemporary criticism. In a world that feels increasingly fragile, people will continue to look for new prayers and new ways to pray. While there are a number of anthologies of prayer available, no book - until now - has attempted to provide a collection that focuses specifically on prayers for a wide range of modern challenges, from the personal to the global. Prayers for Hope and Comfort covers issues facing individuals (illness, addiction); those challenged in relationships (aging parents, divorce); local communities (natural disasters, unemployment); the larger world (poverty, hunger, war); and creation itself (loss of rainforests, species extinction, global warming). Prayers for Hope and Comfort offers readers solace, comfort, and hope, drawing from the wisdom of every era, every major faith and tradition, and the important voices of those who have lived through such experiences themselves. The book contains selections from some of the world's most profound poets and thinkers: David Whyte, Eckhart Tolle, Sister Joan Chittister, and Martin Luther King, Jr. as well as traditional prayers and verses from every time and place. The distinguished scholar Steven Feld shaped the field of the anthropology of sound and music. In this new work, he looks at the vernacular cosmopolitanism of a group of jazz players in Ghana, including some who have traveled widely, played with American jazz greats, and blended Coltrane with local instruments and philosophy. He describes their cosmopolitan outlook as an accoustemology, a way of knowing the world through sound. Feld combines memoir, biography, ethnography, and history, telling a story of diasporic intimacy and dialogue that contests both American nationalist and Afrocentric narrations of jazz history. An in-depth history of rock and roll's Louisiana roots. Taking the position that rock and roll started in New Orleans in 1947 when Roy Brown recorded "Good Rockin' Tonight," Aswell provides an expansive history of this beloved American music form. By looking at the Louisianan influences of swamp pop, Cajun, zydeco, R&B, rockabilly, country, and blues music, the author explores the way these musical forms gave birth to rock and roll as we know it today. A sharp twist on the noir genre from one of England’s finest fiction writers 'I worked one hundred murders,' says Detective Mike Hoolihan, an American policewoman. 'In my time I have come in on the aftermath of maybe a thousand suspicious deaths, most of which turned out to be suicides, accidentals or plain unattendeds. So I've seen them all: jumpers, stumpers, dumpers, dunkers, bleeders, floaters, poppers, bursters. But of all the bodies I have ever seen none has stayed with me, in my gut, like the body of Jennifer Rockwell. I say all this because I

am part of the story I am going to tell, and I feel the need to give you some idea of where I'm coming from.' Night Train is a mystery story which lingers in the reader's mind even after Mike Hoolihan declares the case closed. 'Tough, noir, Chanderlesque' Independent 'Night Train is both delicate and bruising - a long drawn-out blue note. The book hangs around in the mind like smoke in a jazz club' Telegraph Magazine The first work of its kind, this encyclopedia provides 360 brief biographies of African American film and television actresses from the silent era to 2009. It includes entries on well-known and nearly forgotten actresses, running the gamut from Academy Award and NAACP Image Award winners to B-film and blaxploitation era stars. Each entry has a complete filmography of the actress's film, TV, music video or short film credits. The work also features more than 170 photographs, some of them rare images from the Schomburg Center for Research in Black Culture. This book adopts an integrative research framework that primarily combines industrial and discourse analysis to investigate the company Milkyway Image, drawing upon literature that studies film studios and the practices of film production, distribution, and reception. The history of the Hong Kong-based film production company Milkyway Image from its founding in 1996 to the present exemplifies the metamorphosis of the post-return Hong Kong film industry to an era characterised by Hong Kong's integration into a Chinese national context and the transnationalisation of world cinema. It shows that contemporary Hong Kong cinemas transition resists a monolithic chronicle and instead represents a narrative combining the perspectives of different interest groups and a complex process of compliance and resistance, negotiation and contestation. The meaning of Milkyway's films shifts as they are circulated across cultures and viewed within diverse frameworks, and our understanding of Hong Kong cinema is subject to varying contexts and historical configurations. For researchers in film and media studies and those who have a general interest in Hong Kong cinema, Asian cinema, or contemporary film culture, this book reveals how a variety of industry and cultural bodies have become co-creators of meaning for a film production house, and how the company operates as a co-creator of the discourse that surrounds it. . A huge international bestseller, with over 2 million copies sold worldwide, Night Train to Lisbon is an utterly compelling novel about one man's escape from a humdrum life in search of passion and spontaneity. Night Train to Lisbon tells the story of mild-mannered, middle-aged Classics scholar Raimund Gregorius. When, one afternoon, he walks out of his class while in the middle of giving a lesson, his uncharacteristic impulsiveness surprises him as much as his students. This break from his usually predictable routine is driven by two chance encounters that morning on his way to work - the first with a mysterious Portuguese woman, and the second with a book discovered in a forgotten corner of an old bookshop, the journal of an enigmatic Portuguese aristocrat. With the book as his talisman, Mundus finds himself boarding the night train to Lisbon on a journey to find out more about its author, Amadeu del Prado - who was this man whose words both haunt and compel him, seeming somehow clairvoyant? His investigations lead him all over the city, and bring him into contact with those who were entangled in Prado's life. Gradually, he makes unexpected friends and the picture of an extraordinary man emerges: a difficult, brilliant, charismatic man, a doctor and a poet, and a rebel against Salazar's dictatorship. And as Prado's story comes to light so, too, Gregorius himself begins his life anew. Hurling through the dark, Night Train to Lisbon is a rich tale, wonderfully told, propelled both by the mystery at its heart and its evocative subject. Cousineau's wanderlust has driven him to visit nearly 100 countries as a backpacker, documentary filmmaker, travel writer, photographer, and art and literary tour leader. For him, travel gives us what his mentor Joseph Campbell called "the key to the realm of the muses." As author of the best-selling travel book *The Art of Pilgrimage*, Cousineau continues to crisscross the world as a travel writer, filmmaker, and host of *Global Spirit*. *The Book of Roads: Travel Stories from Michigan to Marrakech* is the culmination of a lifetime of travel experiences, from the steel factories of Detroit to headhunting villages in the Philippines, the war-torn villages in the Balkans to the river roads of Canada once traversed by his voyageur ancestors. His rhapsodic travel stories place him in the league of fellow travelers who are also masterful writers, such as Pico Iyer, Jack Kerouac, Jan Morris, and Beryl Markham. Booker-shortlisted for *Time's Arrow* and widely known for his novels, short stories, essays, reviews, and autobiographical works, Martin Amis is one of the most influential of contemporary British writers. This guide to Amis's diverse and often controversial work offers: an accessible introduction to the contexts and many interpretations of his texts, from publication to the present an introduction to key critical texts and perspectives on Amis's life and work, situated within a broader critical history cross-references between sections of the guide, in order to suggest links between texts, contexts and criticism suggestions for further reading. Part of the Routledge Guides to Literature series, this volume is essential reading for all those beginning detailed study of Martin Amis and seeking not only a guide to his works but also a way through the wealth of contextual and critical material that surrounds them. Night trains have long fascinated us with the possibilities of their private sleeping compartments, gilded dining cars, champagne bars and wealthy travellers. Authors from Agatha Christie to Graham Greene have used night trains to tell tales of romance, intrigue and decadence against a rolling background of dramatic landscapes. The reality could often be as thrilling: early British travellers on the Orient Express were advised to carry a revolver (as well as a teapot). In *Night Trains*, Andrew Martin attempts to relive the golden age of the great European sleeper trains by using their modern-day equivalents. This is no simple matter. The night trains have fallen on hard times, and the services are disappearing one by one. But if the Orient Express experience can only be recreated by taking three separate sleepers, the intriguing characters and exotic atmospheres have survived. Whether the backdrop is 3am at a Turkish customs post, the sun rising over the Riviera, or the constant twilight of a Norwegian summer night, Martin rediscovers the pleasures of a continent connected by rail. By tracing the history of the sleeper trains, he reveals much of the recent history of Europe itself. The original sleepers helped break down national barriers and unify the continent. Martin uncovers modern instances of European unity - and otherwise - as he traverses the continent during 'interesting times', with Brexit looming. Against this tumultuous backdrop, he experiences his own smaller dramas, as he fails to find crucial connecting stations, ponders the mystery of the compartment dog, and becomes embroiled in his very own night train whodunit. *ORPHAN, CLOCK KEEPER, AND THIEF*, twelve-year-old Hugo lives in the walls of a busy Paris train station, where his survival depends on secrets and anonymity. But when his world suddenly interlocks with an eccentric girl and her grandfather, Hugo's undercover life, and his most precious secret, are put in jeopardy. A cryptic drawing, a treasured notebook, a stolen key, a mechanical man, and a hidden message from Hugo's dead father form the backbone of this intricate, tender, and spellbinding mystery. To untangle the knot of interlocking meanings of these painted words, logophile and mythologist Phil Cousineau begins each fascinating word entry with his own brief definition. He then fills it in with a tint of etymology and a smattering of quotes that show how the word is used, ending with a list of companion words. The words themselves range from commonplace — like biscuit, a twice-baked cake for Roman soldiers — to loanwords including chaparral, from the Basque shepherds who came to the American West; words from myths, such as hector; metamorphosis words, like silly, which evolved holy to goofy in a mere thousand years; and words well worthy of revival, such as carrytale, a wandering storyteller. Whether old-fangled or brand new, all the words included in *The Painted Word* possess an ineffable quality that makes them luminous. A volume in the *Poets on Poetry* series, which collects critical works by contemporary poets, gathering together the articles, interviews, and book reviews by which they have articulated the poetics of a new generation. Anyone who is plagued by nightmares night after night knows what a heavy burden these nocturnal apparitions represent: one is unable to resume sleep, often lies awake for a long time, and feels fearful, irritable or depressed the next day. What can help to take the fear out of the night? Understanding the message of nightmares is a first step toward relief. These energy-laden images can represent urgent questions stemming from the depth of the psyche. In this book, experienced Jungian analyst Renate Daniel demonstrates how one can succeed in finding appropriate answers to help understand and cope with nightmares. Renate Daniel, M.D., a specialist in psychiatry, psychotherapy and psychoanalysis and Director of Programs at the C.G. Jung Institute in Zürich, has been a psychotherapist in private practice for many years. She is the author of *Nur Mut! Die Kunst, schwierige Situationen zu meistern* (2011) as well as numerous published articles. Contents: 1. What are Dreams? The Waking, Sleeping and Dreaming Worlds 2. Why do we Dream - and What for? Dreams and Mental Health 3. What are Nightmares? Ancient Myths and Neurobiological Insights 4. Dealing with Nightmares: Discovering, Exploring and Understanding Yourself 5. Nightmare Motifs from Culture and Technology: When Objects Become Broken or Dangerous Broken Souths puts Latina/o and Latin American poets into sustained conversation in original and rewarding ways. Who knew that the great country of Canada is named for a mistake? How about "bedswerver," the best Elizabethan insult to hurl at a cheating boyfriend? By exploring the delightful back stories of the 250 words in *Wordcatcher*, readers are lured by language and entangled in etymologies. Author

Phil Cousineau takes us on a tour into the obscure territory of word origins with great erudition and endearing curiosity. The English poet W. H. Auden was once asked to teach a poetry class, and when 200 students applied to study with him, he only had room for 20 of them. When asked how he chose his students, he said he picked the ones who actually loved words. So too, with this book — it takes a special wordcatcher to create a treasure chest of remarkable words and their origins, and any word lover will relish the stories that Cousineau has discovered. The first account of travel in Chinese Turkistan, closed to foreigners since 1949, shows a world where bureaucratic hazards often loom larger than geographical ones. First serial to Esquire. Features a comprehensive guide to American dramatic literature, from its origins in the early days of the nation to the groundbreaking works of today's best writers. The Oldest Story in the World is a brooding, daring, idiosyncratic exploration of the secret strength of storytelling, in which Phil Cousineau addresses the central theme that runs through all his work, the transportive power of words. Written as a mosaic of meditations, this lyrical book ranges from a twelve-thousand-year-old Aboriginal tale, to a mystical Viking story, a venerable myth from the Seneca, and a modern parable from the world of house painters in San Francisco. Wrapped around the marvels he has collected from around the world are Cousineau's own edgy ruminations, which illuminate the irrepressible impulse for storytelling. 'Night Train' is a collaboration between acclaimed poet Sean O'Brien and artist Birtley Aris. This beautifully produced book is presented as a poet-artist's sketch-cum-notebook, in which the text as well as the artwork is hand drawn.
