By day they inhabit a land of bright fantastic birds and dark blue seas, but at night their dreams are haunted by the image of a terrifying beast. As the boys' delicate sense of order fades, so their childish dreams are transformed into something more primitive, and their behaviour starts to take on a murderous, savage significance. This book is a sales phenomenon, with each year outselling the prior for 16 years running! From the BBC Proms to Bernstein's Young People's Concerts, initiatives to promote classical music have been a pervasive feature of twentieth-century musical life. The goal of these initiatives was rarely just to reach a larger and more diverse audience but to teach a particular way of listening that would help the public "appreciate" music. This book examines for the first time how and why music appreciation has had such a defining and long-lasting impact—well beyond its roots in late-Victorian liberalism. It traces the networks of music

educators, philanthropists, policy makers, critics, composers, and musicians who, rather than resisting new mass media, sought to harness their pedagogic potential. The book explores how listening became embroiled in a nexus of modern problems around citizenship, leisure, and education. In so doing, it ultimately reveals how a new cultural milieu—the middlebrow—emerged at the heart of Britain's experience of modernity. The recent strong, sustained appreciation of the U.S. dollar raises questions about possible financial spillover effects for emerging markets and developing countries. This report finds that, unlike past episodes, emerging markets' vulnerability has improved along a number of dimensions, though some risks persist (as identified in this report). On February 10th, 1906, Alice Ruth Moore, estranged wife of renowned poet Paul Lawrence Dunbar, opened her newspaper to learn of her husband's death the day before. This work traces the tempestuous romance of America's most noted African American literary couple, drawing on a variety of resources. This book provides clear and sometimes surprising answers to why gratitude is important to living well. The science of gratitude has shown much growth in the last ten years, and there is now sufficient evidence to suggest that gratitude is one of the most important components of the good life. Both correlational and experimental studies have provided support for the theory that gratitude enhances well-being. After providing a lucid understanding of gratitude, this volume explores the many aspects of well-being that are associated with gratitude. Moreover, experimental work has now provided promising evidence to suggest that gratitude actually causes enhancements in happiness. If gratitude promotes human flourishing, how does it do so? This issue is addressed in the second section of the book by exploring the mechanisms that might explain the gratitude/well-being relationship. This book provides an up to date account of gratitude research and suggested interesting paths for future research, all while providing a theory of gratitude that helps make this information more understandable. This book is very valuable to gratitude investigators, as well as all who are interested in pursuing this line of research, students and scholars of emotion and well-being and instructors of positive psychology courses and seminars. This book is more than an introduction to the psychology of art appreciation, it puts into perspective the research carried out within the area and offers a new understanding of the relationship between art and viewer. A number of studies within the psycho-physical, cognitive, psychoanalytic, and existential-phenomenological schools of thought are presented in order to demonstrate how their views on the appreciation of visual art vary. Living in a "perfect" world without social ills, a boy approaches the time when he will receive a life assignment from the Elders, but his selection leads him to a mysterious man known as the Giver, who reveals the dark secrets behind the utopian facade. In this book, readers will learn practical tips and strategies to teach music appreciation online. As online education is a growing field, an increasing number of teachers trained in traditional/live methods find themselves now teaching online and potentially without mentors to assist them. Students are also changing, seeking highly engaged, relevant, and interactive learning opportunities that connect to their lives. Here, readers will find helpful guidance in planning curriculum, integrating multimedia assets, designing forum discussions, developing assignments, preparing rubrics, engaging in forum discussions, preparing, managing, and teaching, the course, providing feedback and grading, and following up with struggling and challenging students. The book can serve as a resource to those already teaching music appreciation online or as a comprehensive guide to those new to the field. Additionally, it may serve as a resource to instructors in other disciplines who seek to shift live-courses to the online format, as well as music appreciation instructors who would like to integrate digital or online components into traditional face-to-face courses. The book is organized into five major sections, designed to guide the novice online educator in depth while also appealing to the seasoned veteran through the ability to review each section as a stand-alone resource. Although some readers will desire to read from cover to cover, they will also be able to move in a non-linear manner from chapter to chapter, using chapters in modular form, in order to benefit from the sections that most apply to them at any given time.

A brilliantly quirky and affectionate look at a British institution: Wetherspoon Pubs and their incredible carpets. If you've ever been in a Wetherspoon's (and who hasn't), you've probably looked down and noticed the brilliantly-hued carpet beneath your feet. But that carpet isn't just for disguising spilt drinks... Each Wetherspoon has a carpet that is unique and bespoke, with a design inspired by the history of the building, its locale or the name of the pub. Thanks to the hit blog 'Wetherspoon's Carpets' – which posed the important question 'are any two Wetherspoon carpets the same?' – these tapestried hymns to British boozers have become a cultural sensation. Now, Kit Caless has travelled the length and breadth of the UK, from Berkshire to Renfrewshire, Bradford to Bridgend, to photograph over 70 splendid carpets from Wetherspoons and meet some of the pubs' regulars. Each entry appears in all its glorious colour, along with Caless's witty and informative text on the inspiration for each carpet's design, the history of the pub and key facts about the branch and its regulars. I love Kwanzaa and what it stands for. More than a holiday, Kwanzaa and the Nguzo Saba principles are a framework for Life! In this book, 7 Principles for Purposeful Living, the principles are offered as a way to bring clarity, purpose, passion and meaning to your life. This book will change how you see yourself and how you live your life. In 1966 Dr. Maulana Karenga created Kwanzaa, the first pan-African holiday. He said his goal was to "give African Americans an alternative to the existing holiday and give African Americans an opportunity to celebrate themselves and their history, rather than simply imitate the practices of the dominant society." The rituals of the holiday promote African traditions and Nguzo Saba, the "seven principles of African Heritage". Sue Clancy takes an uncommonly odd view of ordinary objects from around the house and paints them in whimsical situations with animal characters that evoke feelings of magic, wonder and laughter. She's deliberately remixing elements of the common world to tell a new and pleasant story of magic household surrealism. Her goal is to tell gentle, pleasant and comforting stories because that's what she needed as a kid and what she wants more of as an adult. Clancy views her creations as souvenirs of moments of love and kindness. Clancy uses gouache, ink, color pencil, acrylic and collage to make her fine art images. The collage text you see in each image is from a falling apart copy of Pride and Prejudice by Jane Austen that Clancy had in her house. Austen wrote about emotions and dealing with them so Clancy enjoys the visual pun of including bits of Austen's text in this fine art series. Clancy creates animal characters because an animal behaving like a human highlights our humanity. Clancy's fine art and artist books have been collected by the Bainbridge Island Art Museum in WA, The UCLA Fine Arts Library in CA, Curtis Children's Justice Center in WA, Washington State University in Vancouver WA, Northwest Surrogacy Center in Portland OR and by many other public and private collections.
