It's OK That You're Not OK Dec 30 2020 Challenging conventional wisdom on grief, a pioneering therapist offers a new resource for those experiencing loss When a painful loss or life-shattering event upends your world, here is the first thing to know: there is nothing wrong with grief. "Grief is simply love in its most wild and painful form," says Megan Devine. "It is a natural and sane response to loss." So, why does our culture treat grief like a disease to be cured as quickly as possible? In It's OK That You're Not OK, Megan Devine offers a profound new approach to both the experience of grief and the way we try to help others who have endured tragedy. Having experienced grief from both sides—as both a therapist and as a woman who witnessed the accidental drowning of her beloved partner—Megan writes with deep insight about the unspoken truths of loss, love, and healing. She debunks the culturally prescribed goal of returning to a normal, "happy" life, replacing it with a far healthier middle path, one that invites us to build a life alongside grief rather than seeking to overcome it. In this compelling and heartfelt book, you'll learn: • Why well-meaning advice, therapy, and spiritual wisdom so often end up making it harder for people in grief • How challenging the myths of grief—doing away with stages, timetables, and unrealistic ideals about how grief should unfold—allows us to accept grief as a mystery to be honored instead of a problem to solve • Practical guidance for managing stress, improving sleep, and decreasing anxiety without trying to "fix" your pain • How to help the people you love—with essays to teach us the best skills, checklists, and suggestions for supporting and comforting others through the grieving process Many people who have suffered a loss feel judged, dismissed, and misunderstood by a culture that wants to "solve" grief. Megan writes, "Grief no more needs a solution than love needs a solution." Through stories, research, life tips, and creative and mindfulness-based practices, she offers a unique guide through an experience we all must face—in our personal lives, in the lives of those we love, and in the wider world. It's OK That You're Not OK is a book for grieving people, those who love them, and all those seeking to love themselves—and each other—better.

Doing Time Together Aug 06 2021 By quadrupling the number of people behind bars in two decades, the United States has become the world leader in incarceration. Much has been written on the men who make up the vast majority of the nation's two million inmates. But what of the women they leave behind? Doing Time Together vividly details the ways that prisons shape and infiltrate the lives of women with husbands, fiancés, and boyfriends on the inside. Megan Comfort spent years getting to know women visiting men at San Quentin State Prison, observing how their romantic relationships drew them into contact with the penitentiary. Tangling with the prison's intrusive scrutiny and rigid rules turns these women into "quasi-inmates," eroding the boundary between home and prison and altering their sense of intimacy, love, and justice. Yet Comfort also finds that with social welfare weakened, prisons are the most powerful public institutions available to women struggling to overcome untreated social ills and sustain relationships with marginalized men. As a result, they express great ambivalence about the prison and the control it exerts over their daily lives. An illuminating analysis of women caught in the shadow of America's massive prison system, Comfort's book will be essential for anyone concerned with the consequences of our punitive culture.

The Book of Help Apr 21 2020 LOS ANGELES TIMES BESTSELLER • WINNER OF THE NAUTILUS BOOK AWARD • "In a world full of spiritual seekers, Megan Griswold is an undisputed all-star. What a delightful journey!"—Elizabeth Gilbert, #1 New York Times bestselling author of Big Magic and Eat, Pray, Love The Book of Help traces one woman's life-long quest for love, connection, and peace of mind. A heartbreakingly vulnerable and tragically funny memoir-in-remedies, Megan Griswold's narrative spans four decades and six continents—from the glaciers of Patagonia and the psycho-tropics of Brazil, to academia, the Ivy League, and the study of Eastern medicine. Megan was born into a family who enthusiastically embraced the offerings of New Age California culture—at seven she asked Santa for her first mantra and by twelve she was taking weekend workshops on personal growth. But later, when her newly-wedded husband calls in the middle of the night to say he's landed in jail, Megan must accept that her many certificates, degrees and licenses had not been the finish line she'd once imagined them to be, but instead the preliminary training for what would prove to be the wildest, most growth-insisting journey of her life.
